

PEPFAR

U.S. President's Emergency Plan for AIDS Relief

Partnering to Achieve Epidemic Control in Kenya

SAVING LIVES

In 2020, PEPFAR supported the following achievements in Kenya:

Life-saving antiretroviral treatment over 1.1million people

Voluntary medical male circumcision for HIV prevention for 121,592 men

Testing and counseling for approximately 5.5 million people

Care and support for 732,159 OVC affected by HIV/AIDS

Antiretroviral medications for 52,659 pregnant women living with HIV to reduce the risk of mother-to-child transmission

The United States is proud to support Kenya's leadership in the global HIV/AIDS response. PEPFAR provides service delivery and technical assistance in Kenya to maximize the quality, coverage, and impact of the national HIV/AIDS response.

Working together with the Government of Kenya, PEPFAR is aligning investments to scale up interventions that are most effective in the areas and populations with the highest burden of HIV/AIDS.

PEPFAR is the U.S. Government initiative to help save the lives of those suffering from HIV/AIDS around the world. **Since 2004, the U.S. Government has invested over 7 billion US Dollars in the HIV response in Kenya and is currently the largest global U.S. government HIV program.** The relationship between the United States Government and the Government of Kenya is one of partnership. The PEPFAR Program is coordinated out of the PEPFAR Coordination Office and implemented by committed Kenyan and American technical staff of the U.S. Centers for Disease Control and Prevention (CDC), the Department of Defense (DOD) - U.S. Army Medical Research Unit / Walter Reed Project (USAMRU/WRP), Peace Corps and the U.S. Agency for International Development (USAID). This year, working closely with many partners, PEPFAR has saved millions of lives by supporting:

- Life-saving antiretroviral treatment (ART) for 1.1 million men, women, and children
- Over 52,659 HIV-positive pregnant women have received antiretroviral to reduce risk of mother-to-child-transmission (MTCT) during pregnancy and delivery this year alone
- Caring for over 700,000 Orphans and Vulnerable children
- Human resources for health, translating to \$62,898,400.12
- 3,670 HIV comprehensive care clinics

PEPFAR Planned Funding in Kenya₂

FY 2021: \$350 million

For complete fiscal year trends, please see the [PEPFAR Dashboards](#).

Data reflect information available on the [PEPFAR Dashboards](#) and [PEPFAR.gov](#), which represents planned new bilateral funding initially approved in the PEPFAR Country Operational Plans/Regional Operational Plans (COPs/ROPs) each fiscal year. As additional funding may be approved and made available after the initial COPs/ROPs submission, or to PEPFAR-supported countries that are not required to submit an annual COP/ROP, data on the Dashboards may not represent the final PEPFAR programmatic funding level in countries each fiscal year.
